They don't represent us.

Senator Kevin de Leon –You're abandoning us by empowering others to take away our ability to drive to work in our own cars. Why?

Those people don't live in our community.
Those people weren't elected to represent our families.

Senator Kevin de Leon:
Your new law (Senate Bill 350) will take gasoline and choices away from the people who supported you.

Don't give away our power to the bureaucrats in Sacramento.

You were elected to protect our families.
