COE MANDATE BENEFITS ONLY

- For members residing in California who push back on using a California BCC, Dr. Dabbah will assist in determining whether a network exception should be made to allow member to go out of state to an Anthem CME or BDCT network facility. BlueCard facilities outside of California which are not COE may not be used if there is a COE mandate in a member benefit. In these cases, members may only use Anthem CME or BDCT network facilities if they have a COE mandate.
